EXAMINER'S ACTION

**Part III DETAILED ACTION**

*Response to Amendment*

Applicants declarations under 37 CFR 1.608(a) have been considered and have mooted the 102(e) rejection of the claims over Holsten et al. The amendments have mooted the rejection over Gruen.

*Claim Rejections - 35 USC § 112*

1. Claim 65 is rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 65 is indefinite in that it claims both a method of dyeing and the product so dyed. Each should be made the subject of a separate claim. The language is further indefinite because of the insertion of the word "optionally" in two places. It is not clear how much of the claimed subject matter is optional. For example the "optional" on line 3 is seen to include "a dye carrier comprising an amide of 7 to 14 carbon atoms..." which makes the inventive concept optional.

2. The following is a quotation of the first paragraph of 35 U.S.C. § 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using

it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

The specification is objected to under 35 U.S.C. § 112, first paragraph, as failing to define the amides as to where the alkyl substituents are located. On table 1 and page 21, are the amides N-substituted? Applicants are requested to provide evidence of which amides are used in the examples.

3. Claims 1-13 and 65 are rejected under 35 U.S.C. § 112, first paragraph, for the reasons set forth in the objection to the specification.

4. The request for interference will be addressed when the above rejections and objection have been resolved.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Margaret Einsmann whose telephone number is (703) 308-3826.
